

YOUR HOME SOLD GUARANTEED OR WE'LL BUY IT!*

A MESSAGE FROM GEORGE

Selling your home is a big deal and, as a consumer, you have many choices of agents and companies, or you can even choose to sell it on your own. The process can be confusing because you don't buy or sell a home every day, so you need to choose the right agent. This can be difficult because it is tough to distinguish between agents that "look good" and those that are good.

You probably know an agent that is nice and seems professional, but can they get you your desired results? Most home sellers define a good agent as having processes and systems in place to get you your desired results. Additionally, the agent will have the resources and skills to implement the plan to sell your home for top dollar.

I designed this brochure to demonstrate how my team and I consistently sell 20 times more homes than the average agent. Also, we offer guarantees so you will be happy with the experience or you can cancel the listing and pay nothing. Any agent can list a home, but my team and I can do more than list your home. We offer a level of customer service that will give you the much-needed peace-of-mind as you move through the process; we are here for your every question, phone call, and text!

In the pages that follow, you will find a summary of the systems we have developed to get you the best results when selling your home. It all starts with our commitment to you. We include old-fashioned customer service, brand-new technology, today's social media, and online marketing. Lastly, we offer flexible fees ranging from do-it-yourself to full-service.

If you want to learn how we do more than just list your home, call me at 619-846-1244.

Maximizing Your Selling Price

The first, and one of the most important steps, in maximizing your equity, is to present your home in the best possible light, both online and in person.

Step 1: Professional Home Cleaning

Deep clean the home and spruce-up the yard.

Step 2: Identify Strategic Fix-Ups

For every \$1 invested, you make from \$3-\$10 return. To accomplish this, we walk through your home and identify specific improvements that increase your equity by modernizing the home which dramatically increase the emotional appeal to buyers.

Step 3: Professional Staging

Our designer will transform your home in three ways to a model home in three easy steps:

- Rearrange furniture placement to create the desired flow for the showings.
- Declutter the home to universally appeal to the most buyers.
- Add beautiful accessories to enhance the impression of comfort, luxury, and exclusivity of your home.

Unfortunately, there are many things that can go wrong during a real estate transaction. In my ongoing commitment to make the selling process as easy as possible, I employ systems that exceed the expectations of our clients and am readily available for YOU!

PROBLEM ANTICIPATION SYSTEMS

Pre-Home Inspection: Since more than 20% of all escrows throughout San Diego County fall apart because of buyers being scared off from items discovered during their home inspection, I will conduct a pre-inspection and address any red flags that would be likely to cause major problems during the escrow process.

Appraisal Report: Since more than 10% of all escrows throughout San Diego County fall apart because of appraisal issues, we meet the appraiser on site and provide a detailed report that includes:

- Marketing and offer history
- List of improvements
- Relevant comparable sales with adjustments

Our clients are 5 times LESS likely to have their home fall out of escrow.

MAKING THE PROCESS AS EASY AS POSSIBLE

After having sold 1000+ homes during 20+ years, we recognize that the actual move itself is one of the most daunting final steps for homeowners.

Because of our continuous effort to make the process as easy as possible, we assist our clients with this stressful step.

We help you pack by providing complimentary moving supplies.

You'll have a firm closing date and you'll know exactly how much net proceeds you will make.

You can focus on packing and saying goodbye to the home versus worrying about the escrow.
